GAINESVILLE, FLORIDA, TUESDAY, SEPTEMBER 7, 1909

TEN CENTS A WEEK

TAKING OF CENSUS TO PROVIDE MANY POSITIONS

Will Require Approximately Three Thousand Temporary Clerks in the Census Bureau.

WASHINGTON, D. C., Sept. 6.—Approximately three thousand temporary clerks will be appointed in the Census Bureau for the Thirteenth Decennial United States Census, and the date of the first examination will be October 23, next, throughout the United States, at various cities, according to a circular announcement, relative to the examinations and appointments, which will be issued jointly by the Department of Commerce and Labor and the United States Civil Service Commission.

Blank application forms and the circular of instructions may be obtained after September 10th, by addressing the Civil Service Commission, Washington, D. C., the Bureau of the Census, Washington, D. C., or the Secretary of the Board of Examiners at the following named places: Postoffice, Boston, Mass.; Philadelphia, Pa.; Atlanta, Ga.; Cincinnati, Ohio; Chicago, Ill.; St. Paul, Minn.; Denver, Colo.; San Francisco, Cal.; Custom house, New York, New Orleans, La.; Old Custom house, St. Louis, Mo.

Very few appointments from the October examination will be made before January 1, next, and not many will be made until April, 1910. The maximum force will be drawn August, next year.

These three thousand appointees will be given salaries of \$600 per annum at the beginning, but promotions to \$900 per annum, at least, will be reasonably rapid for those who render satisfactory service. All appointments will be on probation, subject to termination at one month or any later period if the appointee does not come up to the requirements. In every case the appointments will be temporary and subject to termination as the exigencies of the service may require. All expire by operation of law on June 30, 1912. The average tenure of office will probably be about one year, but the general duration will range from six months to two years. Not one of these clerks will be eligible for transfer into the classified service.

The temporary positions with salaries of \$1,200 and above, provided for by the Thirteenth Census law, will be filled for the most part by the transfer of persons already in the permanent Census Office, it being expected that the latter organization will supply all other classes of clerks except those mentioned below.

The work required of the three thousand temporary employees is, according to the circular, to consist of four classes: The operation of card punching and card tabulating machines; operation of typewriters, adding machines, and combined typewriter-adding machines; manuscript tabulation and other clerical work; sub-clerical work, such as that of messengers, messenger boys, watchmen, and laborers. No one will be appointed who is unwilling to work at punching cards or tabulating cards; or to be compensated on a piece price basis. The salaries of sub-clerical employees will be at the rates customarily paid in the Government service.

Appointments to the permanent Census force will be made as heretofore by transfer from other Government departments or by certification from the existing register of the Civil Service Commission.

The conditions governing the formal application and the special test examination require that the applicants must be citizens of the United States between the ages of 18 and 50 years,

except persons entitled to preference under Section 1754 of the Revised Statutes may be examined without regard to age, and except boys over 16 and under 18 years of age, who, if passed, will be eligible for appointments as messenger boys only.

Exclusions from examination comprises persons who are habitually addicted to the use of intoxicants or guilty of infamous or notoriously disgraceful conduct, or who are physically or mentally disqualified. Excluded also, are persons affected as follows: insanity; tuberculosis; paralysis; epilepsy; blindness; loss of both arms or legs; loss of arm and leg; badly crippled hands, arms, feet or legs; heart disease; locomotor ataxia; cancer; Bright's disease; and diabetes.

Deaf mutes will be admitted to the examination and, if their names are reached on the register, will be offered employment wherever that action is possible.

Other physical defects may debar if the commission so decides. Each applicant must furnish a medical certificate as set forth in the application form, and, if appointed, may be subjected to a physical examination when he reports for duty. Appointments will be made from the eligible list in the order of rating, in accordance with the law of Civil Service apportionment. Only one person can be appointed from one family. It is announced that few, if any, of the 60-day emergency appointments will be made, and none will be necessary before April, 1910.

Only one kind of examination will be given for the temporary force, and it will consist of the following subjects and weights:

Spelling (20 words of average difficulty in common use), 10; arithmetic (consisting of vertical and cross addition, percentages, and a simple exercise in tabulation), 20; letter writing (a letter of not less than 125 words on some subject of general interest; competitors may select either of two subjects given), 20; penmanship (the handwriting of the competitor in the subject of copying from plain copy will be considered with special reference to the elements of legibility, rapidity, neatness, general appearance, etc.), 15; copying from plain copy (a simple test in copying accurately in the competitor's handwriting a few printed lines, including tabular matter), 15; time (consumed in examination), 20.

The time for this examination is 4½ hours, and in rating it a credit of 70 will be given those who finish inside the time limit. Other minor credits are described in the circular. Upon completing the examination, competitors will be given an optional test on typewriting, consisting of an exercise in tabulation. The intention must be stated in the application, and the applicant must bring his own typewriter to the examination room. Those rated at 70 or more will be made eligible.

As a result of the examination outlined above, 5 registers of eligibles will be prepared, and on each register the names of the successful competitors will be arranged in the order of rating. The general register will contain those of 18 years of age and over who pass. From this, another will be made up of the names of all who have had previous experience in operating card punching, card tabulating, or card sorting machines in census work. The third register will show those who make an average of

HIGH SPRINGS AMBITIOUS.

Citizens of That Progressive Town Will Establish Steam Laundry.

Determined not to be outdone by her sister towns, High Springs has decided to "do her washing at home," with the result that an effort is being made to establish a steam laundry, and present indications are that the venture will prove successful, as some of the leading business men of the town are interested.

A meeting was held in High Springs Thursday night for the purpose of organizing a company. This meeting was well attended by a number of the most progressive citizens, with the result that an actual organization was formed, and the following temporary officers were elected:

C. W. Roberts, president; S. B. Philfer, vice-president; R. Norri, secretary; Raymond Lamb, treasurer.

A committee of three, comprising E. B. Godwin, F. W. Dodge and R. M. McKinney, were appointed to sell stock, said committee to make report at the next meeting, which will be held tonight.

The people of High Springs, who have been patronizing out-of-town laundries because they were compelled to do so, have become tired of this inconvenience, and are determined to have a more satisfactory arrangement.

TO ENCOURAGE EDUCATION.

Board of Public Instruction Subscribes \$100 to Conference.

The propaganda issued by the Conference for Education Saturday, Sept. 4th, was cordially endorsed by the Board of Public Instruction of Alachua county at their regular monthly meeting Monday.

Following a statement by Dr. Kelley of the aim and needs of the campaign, of its tremendous value to the development and strengthening of rural schools, and the good it will accomplish in Alachua county, the board passed a resolution appropriating one hundred dollars to aid in defraying the expenses of the movement.

This places Alachua county, as usual, in the lead. The appeal by the State Conference to the counties for monetary aid was issued Saturday and the warrant drawn by our county board will probably be the first in the hands of Treasurer Dr. A. A. Murphree.

ST. AUGUSTINE EXCURSION.

Many Took Advantage of Cheap Rate to Visit Ancient City.

The special excursion over the Atlantic Coast Line from all points along its lines to St. Augustine Monday proved a winner, as a large number took advantage of the opportunity of a cheap rate to visit the Ancient City.

The rate from Gainesville for the round trip was \$1.50, tickets good up to and including September 8, and Ticket Agent Goodwin was kept busy selling tickets for the regular train, No. 39, leaving here at 12:50. About seventy-five tickets were disposed of from this point, the majority of the purchasers being colored people.

To in the test in typewriting tabulation. The fourth will contain the names of those male eligibles who are willing to be watchmen, messengers, assistant messengers, and unskilled laborers. The last will contain the names of boys over 16 and under 18 years of age eligible as messenger boys. Separate registers for men and women will be maintained. Persons desiring to become enumerators, supervisors, clerks, or interpreters, should apply to the supervisor of the district in which employment is sought. The special agents' examination details will be announced later.

EDUCATORS OF STATE LAUNCH A CAMPAIGN

Representatives From Three-Fourths of Counties Attend Important Meeting---Holloway President.

The educational campaign is creating more interest in the State of Florida today than any movement started since the days of the last constitutional convention. It has gathered a momentum that nothing can stop. Business men have become interested in it because the scheme is sound and common sense one. Tax payers are interested because the promoters of the campaign have announced that an honest, straightforward exposition of school conditions will be made. Parents are interested because a fundamental thesis in the campaign is directed against untrained teachers, short school terms and crowded courses of study.

The report made by The Times-Union of the conference of leading educators in Jacksonville Saturday emphasized the fact that the movement is to be a general one. Among those who took part in the meeting and pledged their active support in the field were county superintendents from three-fourths of the counties of the State. President A. A. Murphree, State University, Dr. Conradi, Florida College for Women, Dr. W. F. Blackman, Rollins College, Dr. Tribble, Columbia College, Hon. W. R. O'Neal, postmaster, Orlando, and secretary board of trustees of Rollins College; Hon. H. H. Richardson, secretary of the board of trade, Jacksonville; Judge A. O. Wright, Hon. W. M. Holloway, State Superintendent of Public Instruction, a large number of high school principals and Capt. G. M. Lynch, State high school inspector.

In making the announcement that the campaign would open at Trenton, Capt. Lynch paid a high tribute to the people of that section of our county. The meeting at Trenton will be held the latter part of this month and the speakers will be four of the strongest educational leaders in the State.

Dr. Kelley, who from the very beginning of the movement has taken a prominent part in working out plans, has been requested by the committee to speak in different sections of the State. His work in Alachua county has made him a reputation among Florida school men as one of the real strong superintendents in the State.

Officers Elected.

The organization that was formed elected the following officers: Hon. W. M. Holloway, State Superintendent of Public Instruction, president; Dr. A. A. Murphree, president of the University of Florida, vice-president and treasurer; Capt. G. M. Lynch, executive secretary and general manager; G. W. Tedder of Madison, assistant secretary. Capt. Lynch is secretary and a member of the faculty of the University of Florida.

The meeting was called to order by

Hon. W. M. Holloway, who, in a few preliminary remarks, explained the organization of the temporary conference. Immediately thereafter, upon motion of Superintendent John Walker, of Brevard county, the temporary organization was made permanent, with the amendment that Capt. George M. Lynch be elected general manager of the campaign, as well as executive secretary.

Mr. Holloway, who had been made chairman of the temporary organization, and subsequently made president of the temporary organization, called upon the secretary to read the call published several weeks ago.

Capt. Lynch then read the tentative outline he had made for the campaign, dividing the outline into three sections—method of conducting the campaign; purpose of the campaign and the fundamental thesis to be discussed in the campaign.

A thorough discussion followed the reading of each section.

The propaganda submitted by Capt. Lynch was adopted unanimously, and will be pushed with all vigor during the next four months.

Outline Adopted.

The following is the outline adopted:

Basic purpose: General awakening of the people in public education.

Fundamental thesis: Making the school the center of gravity of community life. How? School improvement association, literary societies, beautifying the grounds, agricultural and economic studies and school libraries.

The high school: Its necessity, "Poor man's college." Its value, educating the teachers for rural schools. Its equipment, its place in the system—connecting link.

Not less than one high school for each county in the State.

Trained teachers, longer school terms, and efficient supervision of schools.

Constitutional amendment of 1-mill tax to provide aid for high schools, rural graded and State's institutions.

Unification of city schools.

Establishment of departments of manual training, domestic science, business and agriculture.

Equipment of laboratory and library.

Expert supervision of city schools. The plan of procedure outlined by Prof. Lynch was as follows:

Divide the State into not less than seventy districts. In each district have a rally. The place selected should be geographically and in point of accessibility the best in the district. Advertise widely the rally six weeks before it is held. Enlist the influence of a number of the most

New York Woman Swam Nine Miles Without Fatigue

NEW YORK, Sept. 6.—Adeline Trapp, 20 years old, yesterday swam nine miles through the treacherous waters of Hell Gate from the foot of East Eighty-Ninth street to Coney Point, L. I.

Accompanied by Priscilla Higgins, a girl of about her own age, Miss Trapp swam in the wake of forty sturdy swimmers of the United States

volunteer life saving corps, who were holding their annual endurance test.

Fifteen of the men swimmers were forced to give up before the finish, and Miss Higgins, after going most of the distance, was seized with cramps and picked up exhausted.

Miss Trapp was in better condition than most of the men at the end of the long swim.

DECOMPOSED BODY OF WHITE MAN IS FOUND

DISCOVERED BY TIE CHOPPER
NEAR TAYLOR'S STILL.

Victim Had Evidently Been Dead
Some Time, as Body Was De-
composed Beyond Recognition.

WILCOX, Sept. 6.—A tie chopper in LaFayette, near Taylor's turpentine still, found near the railroad right-of-way the body of an unknown white man, supposed to have been murdered as a bullet had passed through his shoulder blade. Three cartridge shells were found nearby in a bed of coals where there had been a camp fire. A watch, knife and empty pocketbook were also found. The victim was middle-aged judging by the hair.

It is reported that a stranger of such age had passed through Cross City about five weeks ago, going in that direction, and displayed considerable money there. It is believed he was murdered for his money, but nothing definite as to that has been learned.

Fred Powers killed a large rattler recently near town. The reptile measured seven feet and possessed eleven rattles and buttons.

Thursday evening a stout gale visited our little burg and vicinity, with heavy thunder and lightning doing some damage. Lightning struck Mr. Bryant's dwelling, jarring the door open, but no one being at home nothing but the building was damaged; also one other house in the quarters of the resort premises, damaging the roof, but no one injured.

The resort people are running on regular time, expecting to put on a night crew soon.

The Lucken people will soon build a tram line leading north about three miles, to get the cypress on the east side of the Suwannee river swamp, and will ship to Paradise for manufacture in mercantile order.

DENHAM—BISHOP.

Marriage of Two Well-Known People
in Ocala Sunday Afternoon.

An incident of more than passing interest to the many friends in Gainesville and throughout the State of the contracting parties, was the marriage at Ocala Sunday afternoon at 1:30 o'clock of Mr. William L. Denham of this city and Mrs. Nettie Barco Bishop of Ocala, Rev. R. H. Barnett, pastor of the Methodist church of the Brick City performing the ceremony.

The wedding, which was performed at the home of the bride, recently completed, on Ocklawaha avenue, was a quiet affair, only a few of the most intimate friends of the bride and groom being present. There were no invitations, only announcement cards being mailed after the ceremony.

The bride wore a pretty and stylish suit of tan, with hat and gloves to match.

The groom is well and favorably known in this city, where he was practically reared. For many years he has been connected with The Sun in its various departments, being at present city editor of this paper. He is regarded very highly not only by his associates in this office, but by the general public.

The bride is also known by many here. She is a daughter of Capt. and Mrs. Nic Barco of Crystal River, and a niece of Hon. J. M. Barco, for several years register of the United States land office in this city under the Cleveland administration. In Ocala she is among the social favorites, and is admired for her clever, entertaining disposition.

Mr. and Mrs. Denham left on the afternoon train over the Seaboard for points in West Florida and Georgia, and expect to be absent about two weeks, after which they will be at home to their friends in East Gainesville.

To Mr. and Mrs. Denham friends extend congratulations, with best wishes for their future.

AN EXCITING RUNAWAY.

Horse Belonging to B. T. Arnow Be-
came Frightened at Automobile.

There was "something doing" along exciting lines on West Main street S. shortly after 1 o'clock Monday afternoon, when the horse belonging to Ben T. Arnow became suddenly frightened at an approaching automobile, which was the sign for "23"—and the way that horse skiddooed for a couple of blocks was a caution, and would have made an express train resemble the old story of the tortoise and the hare.

The animal was hitched to a buggy, and was standing at the corner of West Main and Liberty streets. There was no occupant in the vehicle when the horse started to run. Down the street in a southerly direction he galloped at a terrific speed until reaching Union street, when he turned east. Joe Avera, who was standing near his team on East Union street in front of Nicholas Francisco's restaurant, at once realized the danger of the mad animal-dashing into his buggy, and with great presence of mind rushed into the street and whipped the animal away just in time to prevent a collision. Mr. Avera, however, was struck on the hip by the buggy wheel, causing a painful though not serious injury.

Mr. Arnow's horse was finally checked before any serious damage was done to the vehicle, only the shafts being slightly sprained.

Rule Day Was Quiet.

Monday being the first Monday in the month, was rule day, but little business was transacted in the office of County Judge H. G. Mason, only a few papers of minor importance being filed. Judge Mason pronounced this one of the dulllest rule days he has experienced during his administration, covering a period of several years.

half of the movement.

Designate a local school teacher, county board member, county superin-
tendent, editor of paper, and two large taxpayers to make talks, give them subjects if necessary.

Have, if convenient, a round-table meeting at the close of general meet-
ing, with ten or more of the leading business men and farmers. The ob-
ject is to fill them full of personal interest and make them conscious of their responsibility in the work.

Organize the ladies in school im-
provement associations. Hold meet-
ings in or near a school house.

The following committee was ap-
pointed to appear before the Jackson-
ville Board of Trade this week, and ask the co-operation of that body in the campaign: Hon. W. M. Hollo-
way, Hon. W. B. Clarkson, and Capt. George M. Lynch.

A resolution requesting each and every county in the State to con-
tribute not less than \$50 for meeting the expenses of the campaign was adopted.

A vote of thanks was tendered the board of trade for the use of the auditorium.

Fast Driving of Autos.

Editor Sun: With the advent of the automobile in Gainesville comes the nuisance of fast and reckless driving of these machines by irresponsible persons. Very seldom one hears the warning signal at street corners, and life and limb are in danger especially on East Main street, where some of these machines are driven fully at the rate of 25 to 30 miles an hour, utterly ignoring the rights of pedestrians.

It is a wonder no more serious accidents have happened so far, and it is time to pass strict laws in regard to the above, rather than to restrict a person from purchasing a nickel's worth of apples on Sunday, etc., etc.,

SHERIFF'S SALE.

Notice is hereby given that under and by virtue of an execution issued out of and under the seal of the Circuit Court of Alachua county, Florida, on the 6th day of September, A. D. 1909, in a certain cause therein pending wherein J. A. Jones and B. P. Jones, late co-partners doing business under the firm-name and style of J. A. Jones & Company, are plaintiffs, and P. H. Baker is defendant, I have levied upon and will offer for sale at public outcry before the front of the court house in Gainesville, Alachua county, Florida, on the first Monday in October, A. D. 1909, the same being the 4th day of said month and a legal sales day, within the legal hours of sale, the following described property, the said property having been levied upon as the property of the said P. H. Baker, to-wit:

The West $\frac{1}{2}$ of the Northeast $\frac{1}{4}$ of Section 17, Township 19, South of Range 22 East, containing 80 acres more or less.

Also, the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 21, Township 19, South of Range 22 East.

Also, commencing at a point on North boundary line of Section 8, Township 19, South of Range 29 East, which point is located 16 chains and 83 links east of the Northwest corner of said Section 8, Township 19, South of Range 29 South and East, thence run East 629 feet more or less to the West boundary line of Olivia A. Porter's lands, thence South 627 feet more or less to margin of railroad reserve or right-of-way, thence West-
ly on a parallel line with said railroad right-of-way 641 feet more or less to the Southeast corner of lands conveyed by T. C. Ellis and S. A. Ellis to F. P. Chamberlain, thence North along East boundary line of lands so conveyed to said F. P. Chamberlain 744 feet more or less to point of beginning, containing by estimation 19 acres of land more or less.

Also, Lots 5, 9 and 10 of Block 2, Range 1, and S $\frac{1}{2}$ of Block 3, Range 1, and S $\frac{1}{2}$ of Block 4, Range 1, of Daig & Robinson's Addition to the City of Gainesville.

Also Lot 7 of Voyle's Survey of N $\frac{1}{2}$ of Section 6, Township 19, South of Range 29 East, all of said lands lying and being in Alachua county, Florida.

Terms of sale, cash, purchaser to pay for title. **P. G. HAMSEY**
Sheriff Alachua County, Florida.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

TEACHERS WILL BEGIN EXAMINATIONS TODAY

LARGE NUMBER HERE TO ENTER WORK THIS MORNING.

White Applicants Will Assemble in High School, Colored in the Union Academy.

The annual examination of applicants for the position of teacher in the public schools of Alachua county will begin this morning at 8 o'clock, as per announcement formerly published, and will continue for four days, ending Friday afternoon.

A large number of applicants, representing every section of the county, are here for the purpose of taking the examination.

The examination, which will be conducted for white and colored applicants simultaneously, will begin at 8 o'clock this morning. The white applicants are requested to report at the Auditorium of the Gainesville Graded and High School at that hour. This examination will be under the supervision of Miss Serena Shannon, an efficient member of the faculty of the school, and one of the most competent educators of this section of the State.

The examination of applicants for teacher among the colored people will be held at Union Academy, and will be conducted by W. Weeks Miller, a member of the school board, and a young man thoroughly qualified for the work.

Applicants are required to bring \$1 and a supply of stationery and ink.

Considerable interest is being manifested in the examination, and many of the applicants have devoted a great deal of time in preparation.

NEWS OF CITY AND COUNTY CONDENSED

Mrs. George Frank has returned to her home in Jacksonville, after a pleasant visit to her mother, Mrs. J. M. Brooks, S. Roper avenue, East Gainesville.

For a mild action of the bowels, a single dose of Doan's Regulents is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggists for them.

E. K. Fagan left yesterday for Jacksonville, having been summoned on account of the illness of his son, Walter. It is hoped he found the condition of the patient improved.

Mrs. Geo. W. Brumley has returned from her old home in Maryland, where she spent a few weeks pleasantly with relatives and friends. She was joined in Jacksonville by Mr. Brumley, who accompanied her home.

Miss Julia Kennedy, one of the efficient teachers in the Gainesville Graded and High School, has returned from Knoxville, Tenn., where she went to take a special course in her profession. Friends are glad to welcome her home again.

E. J. Baird, the basket and crate manufacturer, left last night for Orlando and other points in South Florida in the interest of his products. Mr. Baird has a large stock already on hand, for which he is finding a ready sale in the fruit and vegetable sections.

Rev. W. J. Martin of Bell, more familiarly known among his friends as "Uncle Jack," was in the city yesterday. Mr. Martin is one of the most widely-known residents of the West End, and for some time represented his section as a member of the school board.

DeWitt's Little Early Risers, the safe, sure, easy, gentle little liver pills. The original Carbolized Witch Hazel Salve is DeWitt's. The name is plainly stamped on every box. It is good for cuts, burns, bruises, sores, boils and sunburn—but it is especially good for piles. Sold by all druggists.

The park surrounding the Villa Thomas is fast disappearing in a fine growth of grass which has overgrown the place. This place once promised to be a very attractive park under the supervision of Gardener Blane, but very little is to be seen now, and we fear that at this rate the attempt at beautifying will be a thing of the past.

G. A. Blane, our efficient landscape gardener, has accepted a situation with the Charlotte Harbor and Northern R. R. Co. in his capacity as landscape gardener. We regret that lack of work in his line of business in Gainesville has compelled that gentleman to seek work somewhere else. There should be and is plenty of work for a good gardener in this city if the people would appreciate the necessity of beautifying the city in parks and house surroundings. A man of Mr. Blane's knowledge and experience in horticulture should be kept busy all the time in Gainesville.

BALL SEASON HAS CLOSED.

Oak Halls Disbanded After Game With Ocala Saturday Afternoon.

After a season of only fair success, the Oak Hall baseball team disbanded after the last game with Ocala Saturday afternoon, and the men comprising the team left Monday for their respective homes.

While the Oak Hall have been unfortunate during the season, it was really not on account of inefficiency, as a more competent lot of players as an aggregation was ever assembled in the amateur baseball field of the State. For some reason it was just an off-season with Gainesville, as they did not appear to work together in the great national game as well as other teams.

Manager Davis will begin to cast his eye early the next season, and promises to redeem the standing of the old Oak Halls, which for many years held the amateur championship of the State.

AT THE AIR DOME.

Blossom Harris, the Ya-Ma Ya-Ma Girl, in a Clever Dance.

The usual big Monday night crowd was attracted to the Air Dome last night, and those who attended were well pleased with the excellent motion pictures and the special attraction in vaudeville, this attraction being Blossom Harris, the Ya-Ma Ya-Ma Girl, who presents a dance peculiarly different from all others. Miss Harris has signed for a week's engagement and will be seen every night during the week, including Saturday.

Phifer's Sale Continues.

The Sun was mistaken in the statement that the big sale which has been going on at the New York Racket Phifer Bros., for the past few days, closed Saturday. This was the original intention, but the sale was such a success that it was decided to continue same throughout Monday and today.

The sale will positively close tonight, and those who have not already availed themselves of an opportunity for bargains should do so today.

Meeting School Board.

The regular monthly meeting of the Board of Public Instruction was held Monday instead of today, the regular meeting day.

The change of date was occasioned by the examination of teachers, which will begin today and continue until the afternoon of Friday, the 10th inst.

Poor, Foolish Woman!

Think of her attempting to make ice cream in the old disappointing way! With **JELL-O ICE CREAM POWDER**

she can make the most delicious ice cream in ten minutes, freezing and all, at a cost of about one cent a dish—and never go near the stove. Your grocer will tell you all about it, or you can get a book from the **Gainesville Pure Food Co., La. Boy, N. Y.**, if you will write them. Grocers sell Jell-O Ice Cream Powder, two packages for 25 cents.

Rev. Nixon Here Sunday.

Rev. T. J. Nixon, for years pastor of the First Methodist church in this city but now presiding elder of the Gainesville district, filled the pulpit at the Methodist church Sunday morning and evening, filling a great void in the church's service. Dr. Nixon is an eloquent preacher, and his presence here is quite popular as pastor here.

STEVE SPARKMAN.

Congressman Sparkman will not be a candidate for the United States Senate next year under any circumstances, but will be a candidate for re-election to Congress from the First district. Col. Sparkman confided this much to his friend, Col. Robert W. Davis, prior to his departure for Europe, with the request to make his decision public at such time as Col. Davis deemed proper. There is little doubt that Col. Sparkman can be of more service to his people in the House than in the Senate, for he is the ranking Democratic member of the Rivers and Harbors Committee in the House, and the only member of that committee Florida has had in fifty years. Should the Democrats elect a majority of Congressmen in 1910 Col. Sparkman will undoubtedly be made chairman of this committee, which is without doubt the most important of all committees so far as Florida is concerned; whereas should he relinquish his seat in the House to run for the Senate it may be fifty years before Florida is again given a place on this committee. Col. Sparkman realizes all this, and while it is natural for a man who has served in the House as long as he has to desire promotion to the Senate, he feels it his duty to remain where he can be of the most service to his people. In this decision he has placed the interests of his people above personal ambition, and the people of his district should return him to Congress as long as he will consent to serve them.

Gainesville did herself proud yesterday. She sent down a very large and well-behaved delegation, and a ball team that knew the ins and outs of the game to perfection. This paper tips its hat to Gainesville.—Ocala Banner, 3d. The Sun acknowledges The Banner's salute. The battle between the two towns for supremacy in baseball has been fierce this season, and Ocala is to be congratulated upon the victory. Her "fans" are stayers, not quitters, and defeat in one or two games only made them the more determined to be victorious in the next game. The mingling together of the people of the two cities, as a whole, has brought them in closer touch with each other and tended to increase the friendly feeling that has always existed between them. Let us all now rest from the sport for a few months and buckle down to business of a more commercial nature, the relaxation period having passed. Next year Ocala fans can prepare for the same "drubbing" by the Oak Hills that has been given them every season without a single exception, until this year, for the coming season Gainesville is going to have "THE GOODS THAT WILL TAKE THE MONEY."

Texas is preparing to offer at public auction the holdings of the Waters-Pierce Co. in that State. Here is a good chance for any consumer not satisfied with the first prices to get a gasoline farm of his own.

A receiver has been appointed by the Junata Water & Power Co. to take care of the company's affairs.

LIFE IN FLORIDA.

There are some people who would gladly come to Florida to live could they see their way to support here themselves and families. But the real point in this matter of supporting a family is not so much the income as the outgo, the expenses. If you can live here cheaper by doing away with a considerable part of the expenses you must bear in the North, then one does not need to earn as much as he requires there; and if he does earn as much or even more, as there is no reason why one cannot do so here, then he can save more or have more of life's comforts or even of its luxuries.

There are hundreds, yes thousands, of families in the Northwest and West whose breadwinners, the husband and father, just barely earns a support from year to year. The family is compelled to live in a very limited manner because of a very limited income. The house is small, its location not the best, the food is scanty or nearly so, the clothing barely sufficient, the winter clothing hardly that, and the fuel bill seems to be always growing more and more although every effort is made to get along with the least possible until in the long and cold winter months it is an almost constant shiver. To this may be added the doctor's bill.

For such a family, and there are hundreds of them, to come to Florida, would almost be like escaping from a sort of prison life to freedom; from almost penury to a reasonable degree of comfort. What such a family could save in fuel, clothing and doctor's bills would pay the food bill.

But think of the contrast in the two lives! There more than half the year spent in four or five close rooms, either too hot or too cold; the sunshine a rarity, one hour out doors for five or ten in the house; dull, gray, gloomy skies, mud, slush, icy walks, nature covered with the pall of death, trees like skeletons, and oh, well the winter need not draw out the picture more fully.

Here plenty of sunshine, clouds and gloom a rarity, sunshine nature's great remedy for bodily and mental ills, the great cure and the great preventative of disease. It cheers, it stimulates, it inspires. Compare the statistics of the two sections, say here and in New England, and see how many suicides there and how few here.

All know that there is nothing so helpful to health of body and mind as an outdoor life and plenty of sunshine. Here little fuel is needed; here but little clothing and that the lightest kind, is required; and it lasts longer.

Here, with a patch of sweet potatoes, and the little garden twenty or thirty feet square, a large part of the family living can be had, raised in the off hours of the husband, perhaps helped by wife or child, and this garden is not for one or two months, but for twelve months in the year, for something useful can be growing at all times. But what can a man do to earn something? An able-bodied man, willing to work, can have no real difficulty in earning a living anywhere here almost. If he should not get the work he prefers at first he will later on. An effeminate sort of person might have some trouble to get along, but a man would not.

And think of getting away from the almost continual clouds and gray, gloomy skies, from the chill and disastrous east winds, from being cooped up half the year or more in a few small rooms, from the slush, sleet and ice; from big bills for wood and coal, for clothing, for medicine and doctors.

from the "grims" and that long list of evils which man in the North is heir.

And think of the delicious climate and living out of doors in it, the sweetest, healthiest climate ever breathed by man; of the beautiful orange groves and the fragrant orange blossoms, of the mocking bird, of the stimulating ozone borne on the perpetual breezes that continually sweep over this peninsula from the Atlantic ocean on the one side and from the Gulf of Mexico on the other. Think of our splendid pine forests with their health-giving balmy odor, our magnificent ocean beaches as the finest health resorts in the world, of our innumerable lakes and streams with the most and finest fish in the world; of our forests and field with quail, turkey, deer, bear; think of our children growing up in a country which now is comparatively a new land with all the promise and potentialities of such a new land; good schools, churches, and as the auctioneer would say, "many other things too numerous to mention." When you think of these things, when you fairly consider the pros and cons of this matter, make up your mind to come to Florida—and come.—W. H. J., in Orlando Reporter-Star.

State Superintendent Holloway did not say a word too much. A man, be he white or black, who would steal or cause to be stolen the questions or answers to be used in State uniform examinations should not be allowed to teach in the public schools of the State. While his letter was perhaps stronger than necessary, it will no doubt accomplish the purpose for which it was intended, and if it does, that is all that could be desired.—Live Oak Democrat.

Fernandina reports ten big vessel loading and nineteen charters granted.

The Tampa weather bureau reports the total rainfall for August to be thirteen inches.

A site costing \$7,500 has been purchased in Live Oak by the United States Government for a new post-office.

Last week a rattlesnake measuring four and a half feet in length and having seven rattles was killed on the farm of I. S. Geiger at Jasper.

Dr. Rogers has a mushroom farm at Crystal River. He intends to grow the edible sort and will sell it to the fine tourist hotels for 70 cents a pound.

While quarrelling in a game of skin over five cents, George Cobb shot and killed William Allen, both negroes, at Williams' turpentine camp, near Armstrong, last Friday. Cobb escaped.

The Florida railroad commission has ordered the L. & N. at Bonifay to remodel and enlarge their depot at that place. The floor room in the freight department is to contain no less than 1,800 square feet.

E. H. Youngs, Jr., who has had charge of the Lakeland Ice Works, was terribly scalded from his knees down by falling into the condenser, a vat containing boiling water. He will be disabled for some time.

The cultivation of the Eucalyptus tree in Florida is now receiving some attention, and it has been proposed that extensive plantings in the lower part of the State might become as great an investment as it has proved in California.

The State Board of Pardons has refused to entertain the application of the negro Caldwell for a pardon. Caldwell is one of the three infamous murderers who shot down in cold blood Superintendent Epps in Leon county about two years ago.

Indications are that the Government looks with favor upon Miami rock as the proper material with which to erect the new Federal building. If it is selected Miami will owe a debt to Frank Clark for his able assistance in urging the matter before the department.

It is said that the automobile dealers of Tampa have contracted for more than 400 cars, to be delivered within a short while. They will sell them fast, too, for automobiles are very popular in Tampa, and will become more so as the roads are improved and hardened.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy, is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root. If you can't find it, write to Dr. Kilmer & Co., Binghamton, N. Y.

INDIGESTION?

is ill and threatened with appendicitis, Judge Minor S. Jones has granted the application of J. C. Falk, who is under life sentence for murder, that he be transferred from Dade county jail to the State hospital pending the result of the supreme court hearing of his appeal.

A. J. Peaden of Santa Rosa county, who with his brothers own an immense herd of sheep in West Florida, have proved that wool can profitably be raised in the South. They have marketed between 16,000 and 20,000 pounds of wool in the past few weeks. Nearly the same amount has been made for several years.

William Gomm of Buckingham, Lee county, is now planning to put in 20 acres of vegetables next season to be used exclusively by the cannery he is preparing to put in operation. His cannery at present has a capacity of 1,000 cans a day and Mr. Gomm expects to greatly exceed this if he can obtain the material.

John Williams was very seriously injured by a wild boar last week near Haw Creek. After he had captured the boar he took it in his arms to carry it to his wagon; the hog threw its head around, sinking a long tusk into the man's breast, which tore deep in his flesh. Williams is in a serious condition, owing to the time elapsing before a doctor could reach him.

Editor Bittinger of The Ocala Star, says The Orlando Reporter-Star, has quit at playing the "Wandering Boy," and is again at his desk a wiser and a better, as well as a more contented man. Here is what he says: "The editor is home from his wanderings over this great country. He has traveled over nearly 10,000 miles, seen and admired much, noted people who dream great things and do them, yet with all the appalling splendor and wonder seen in our travels we are home with a sense of relief and an abiding faith in Florida and its future, a place that seems more like home than all the rest of the world, for the saying, 'home is where the heart is' comes true in our case, and here is where it finds rest."

Juvenile Baseball.

An interesting game of baseball was pulled off on the local diamond Monday afternoon, the contesting teams being the Oak Hills, Jr., and Scouts.

The game was witnessed by quite a number and proved quite exciting. It required twelve innings to settle the matter of championship, at the end of which the Oak Hills, Jr. were victorious by a score of 5 to 3.

These teams will play again Wednesday afternoon.

DEATH OF MRS. ROBINSON.

Occurred at Worthington Sunday. Funeral at Rochelle Monday.

Mrs. Caroline Elizabeth Robinson, beloved wife of F. A. Robinson, and daughter of Mr. and Mrs. L. R. Jones, of Rochelle, died at her home in Worthington Springs Sunday afternoon about 3 o'clock, after a brief illness.

Deceased was in her nineteenth year, and was well-known and admired for her sweet disposition by a large circle of friends and acquaintances. She was a member of the Rochelle Methodist church, to which she was very much devoted, and during her short connection with the church—about one year—was quite active in its religious affairs.

The remains passed through the city Monday for Rochelle, where the funeral was held from the Methodist church in the afternoon, the interment being in Oak Ridge Cemetery.

Deceased is survived by a loving husband and infant daughter, besides her parents, to all of whom is extended the sympathy of the community.

LABOR DAY OBSERVED.

White People Took No Part, But Colored Men Participated.

Labor Day, the great national holiday among the working class, was not entirely unobserved in Gainesville, although the white organizations did not participate.

A number of the loyal colored laborers arranged an attractive program, which was pulled off at the baseball park, a favorite resort for this class of entertainment. The program consisted of numerous athletic games, and at noon a big barbecue was served to several hundred people. In all, it was a day highly enjoyed by the colored element, and one which will long be remembered by those present.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was. Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Who Pays For Your Printing?

Poor printing is a detriment to any business, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
